

A DANGER OF SPIRIT COMMUNICATION
WITH A PENDULUM

pt. 1

(poem)

-by B. Edwards

Myself.....

I got hit
with spirit attachments
and with hearing
the damn intrusive voices
after experimenting
with EVP
but awhile back
I met a man
who described to me
the exact same experiences
only he had been
communicating with spirits
by using a pendulum
but what he told me
what he described to me
with how these spirits
tricked him early on
how they seemed
very kind and benevolent at first
but then suddenly
switched on him
and became tormenting
and intrusive to the extreme
how the voices followed him around
and harassed him constantly
and how they told him far out
bizarre stories
and they spoke lie
after lie
after lie

both of us
our experiences
started years apart
but so much about them
sounded exactly the same
so it left no doubt in my mind
spirit communication
with EVP
and with using a pendulum
carries this same exact
particular danger

and that is the danger
of hearing these kinds of voices
these kinds of intrusive voices
that attach to your life
your mind can become their playground
and they can set about causing such chaos
and such strife

it's a very real danger
and a big part of this danger
is the sudden surprise
literally over the course
of a single day
you can start to hear voices
and you won't know
what the hell is going on

and how masterful they are
at setting a trap
in the beginning

you'd never see it coming
so take this warning to heart
it's best to stay clear
of anything like this
no matter what you hear
read
or see on TV
no one can promise you with honesty
that there's absolutely no risk

there are risk
of course there are risk
and one of those risk
is hearing these kinds
of voices
and that you can fo without
